

Greyhound Adoption Program News

By

SHEREE BUCKLEY

THE first Caboolture Pet Expo was held early in July and the Greyhound Adoption Program attended.

The program and the dogs were accepted very well by all the visitors. There were animals of all shapes and sizes ... cats, rats, birds and all breeds of dogs. Our promotional stall was kept busy with positive people wanting to know more about the dogs and about the program.

And many different companies were eager to talk to GAP and book us to attend some of there up-and-coming events.

It is such a great feeling when we get such positive reactions and also when you can take any dog that is in the program and confidently know they will be on there best behaviour and always take what comes in there stride.

They are the best animals, very responsive.

When you watch all the other people with there animals all wanting to fight, bark and play up while on there leads, you just can sit back and take a look at these guys and they are just perfect.

It gives me great pleasure being the co-ordinator of the program and being associated with these dogs, they all have something special to offer and not one is ever the same.

I would like to thank the Caboolture Council for inviting us to attend and also for putting on a great event and we will certainly be back next year.
